Every pipe smoker should be the proud
possessor of a

LARSEN Handmade pipe

W. Ø. LARSEN

BY APPOINTMENT TO H. M. THE KING OF DENMARK

9. AMAGERTORV COPENHAGEN

DENMARK

ESTABLISHED 1864

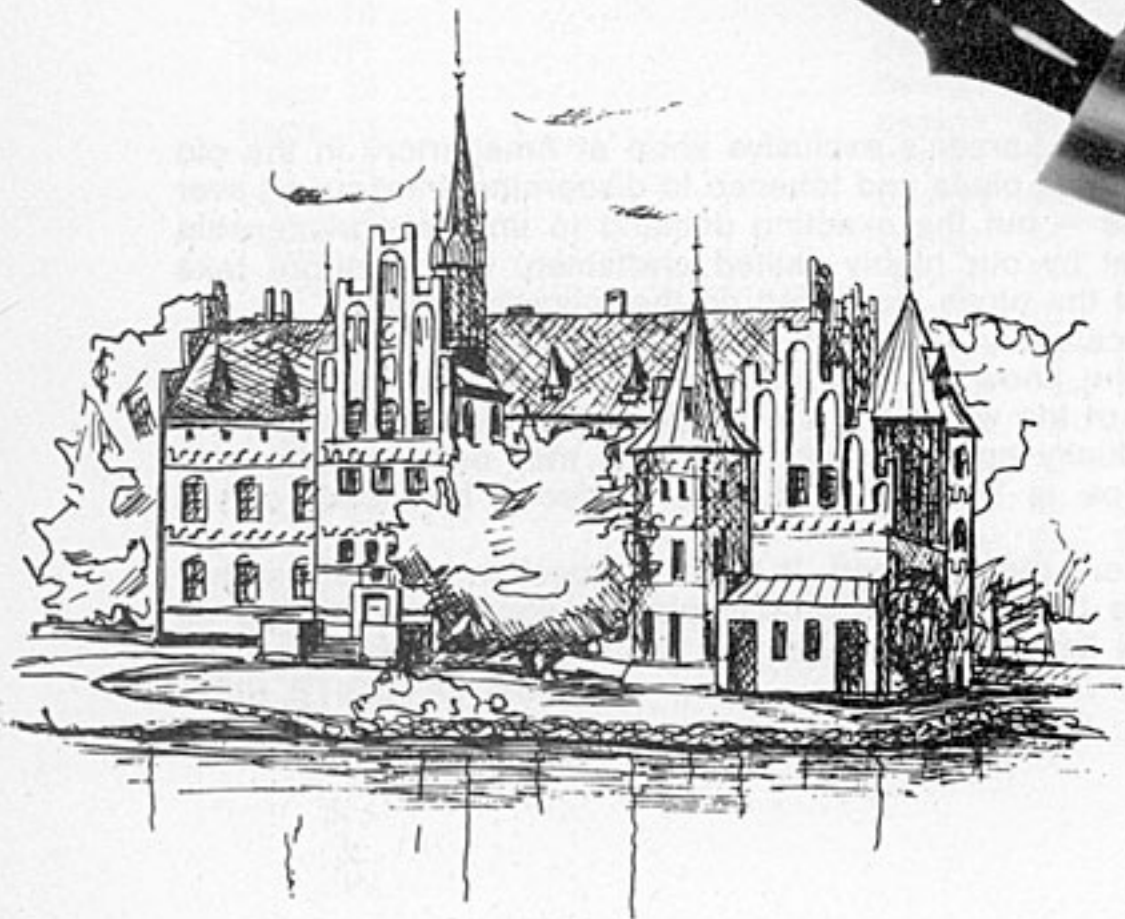

For four generations W. Ø. Larsen's exclusive shop at Amagertorv in the old part of Copenhagen has sold pipes and tobacco to discerning smokers all over the world. Times change — but the exacting demand to unique workmanship and quality are still met by our highly skilled craftsmen. We therefore take pleasure in showing you the pipes illustrated on the following pages.

Each block of briar is carefully examined before the pipe is cut by hand by skilled Danish artists who know how to achieve unprecedented harmony between the natural grain of the wood and the shape of the pipe. Because most of our pipes are individually created slight variations may occur within each model. Every single pipe is beautifully shaped, perfectly balanced, and a pleasure to smoke.

We know you will be more than pleased. It is not a question of "just another pipe". When you hold a LARSEN HANDMADE pipe in your hand, admire its beautiful shape and feel its smooth texture, you will realize that this pipe will become
YOUR FAVORITE PIPE.
