9, AMAGERTORV - COPENHAGEN  
DENMARK

ESTABLISHED 1864

For four generations W. O. Larsen's exclusive shop at Amagertorv in the old part of Copenhagen has sold pipes and tobacco to discerning smokers all over the world.

Times change — but the exacting demand to unique workmanship and quality are still met by our highly skilled craftsmen. We therefore take pleasure in showing you the pipes illustrated on the following pages.

Each block of briar is carefully examined before the pipe is cut by hand by skilled Danish artists who know how to achieve unprecedented harmony between the natural grain of the wood and the shape of the pipe. Because most of our pipes are individually created slight variations may occur within each model. Every single pipe is beautifully shaped, perfectly balanced, and a pleasure to smoke. We ship our pipes and tobacco all over the world and shall be pleased to send one (or more) to you.

On the next pages we have shown you only a small selection of the many pipes which are available at our old shop. Other shapes will be described in future issues of this catalog which we shall be pleased to send to you and your friends if you will drop us a line.

You can also have a pipe made entirely according to your own specifications, if you will send us a sketch and description regarding finish and approximate price range. We know you will be more than pleased. It is not a question of "just another pipe". When you hold a Danish pipe in your hand, admire its beautiful shape and feel its smooth texture, you will realize that this pipe will become

**YOUR FAVORITE PIPE.**

Should you happen to come to Copenhagen at some future date, we hope that you will call on us and see for yourself the large and varied selection of beautifully Danish handmade pipes. You may also be interested in visiting our small museum, where old tobacco jars and rare pipes from many countries are on display.

**SIXTEN IVARSSON** design.

DESIGN - SANDBLAST - NO. 15

DESIGN - SANDBLAST - NO. 17

DESIGN - SMOOTH - NO. 19

These pipes are made by hand of specially selected briar. Both the bowl and the stem are cut and turned by hand. The result is the most perfect pipe to be found anywhere. Price each \$ 20.00.

Design Nos. 15 and 17 are with oriental bamboo shank, the shank is highly absorbent, it dries and cools the smoke, imparts a flavorable sweetness. Design No. 15 is shown as a medium size, on stock in small size (No. 14) or in large size (No. 16).

Illustrations are full size.

All IVARSSON shapes are available in mahogany smooth finish and tan or black sandblast.

**P. BRAKNER** design.

Also these pipes are completely handmade and will satisfy the most particular pipe-smoker. The design of the pipes is somewhat more robust than other handcut Danish pipes — however, this has been done without detracting from the pipes' elegant lines. Price each \$ 7.50

**P. BRAKNER** design.

**POCKET-PIPE**

**THE POCKET PIPE.**

This shape is ideal for hunting or fishing trips. Before putting the pipe in your pocket the stem is turned round and the whole pipe hardly takes up any room at all — and at the same time the stem is protected. The pipe's special shape makes it easy to have in the mouth and it is very pleasant to smoke. Price each \$ 7.50.

## P. RASMUSSEN design.

These perfect handmade pipes can be supplied in the following selections: Straight grain, Flame grain, Super-grain, Handcut and Copenhagen de luxe. The first three qualities are for the smoker who wants only the very best. Copenhagen de luxe are actually the same designs but at a moderate price because the production has been rationalized without lowering the demands for a quality pipe.

## TOBACCO JARS

SAXBO STONE-WARE. The ideal tobacco jar which enables the tobacco to keep its flavour forever. The lid is extremely tight and the tobacco will not lose its suppleness either. A tobacco jar that is both useful and decorative — it comes in two sizes and in the following colours: light green, dark blue, brown and dark brown. The elegant little pipe canoe which can be supplied in the same colours as the jar is designed by the artist Erik Rahr and made especially for us at Nathalie Krebs's wellknown workshop.

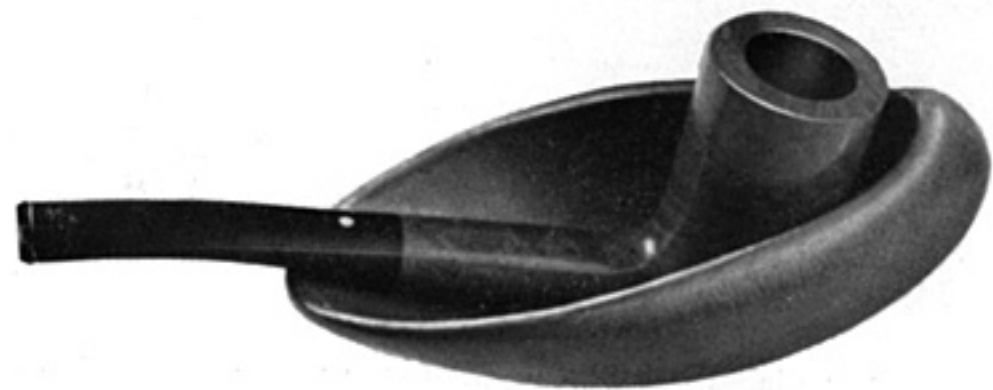

KYHN's ceramic jar is a light and elegant tobacco jar made with a green or yellow lid. The jar itself being of a handsome dark grey colour with mat finish. Price \$ 4.00.

Behind the superb quality of every brand lie the joint efforts of two of Denmark's best-known tobacco factories, W. Ø. Larsen and A/S Aage Lichtinger. For four generations W. Ø. Larsen has specialized in the manufacture of fine tobacco products, and is by Royal Appointment Purveyor to the Danish and Swedish Courts. Lichtinger is the only European factory specializing in the manufacture of cigarillos (small cigars).

These facts guarantee that the brands shown here are of a probably unsurpassed quality.
